WELCOME TO THE ACE- WIL PD EVENT

MAY 30, 2023

Received fundings from the Ministry of Advanced Education, Skills and Training to conduct research (THANK YOU!) to develop a course for BC WIL Practitioners with the intent to bolster our collective understandings of the foundations of WIL as a field.

How we arrived at the course:

Surveyed WIL Practitioners about topics of interest and modes of delivery, analyzed the findings, and proposed a learning model, themes, and topics.

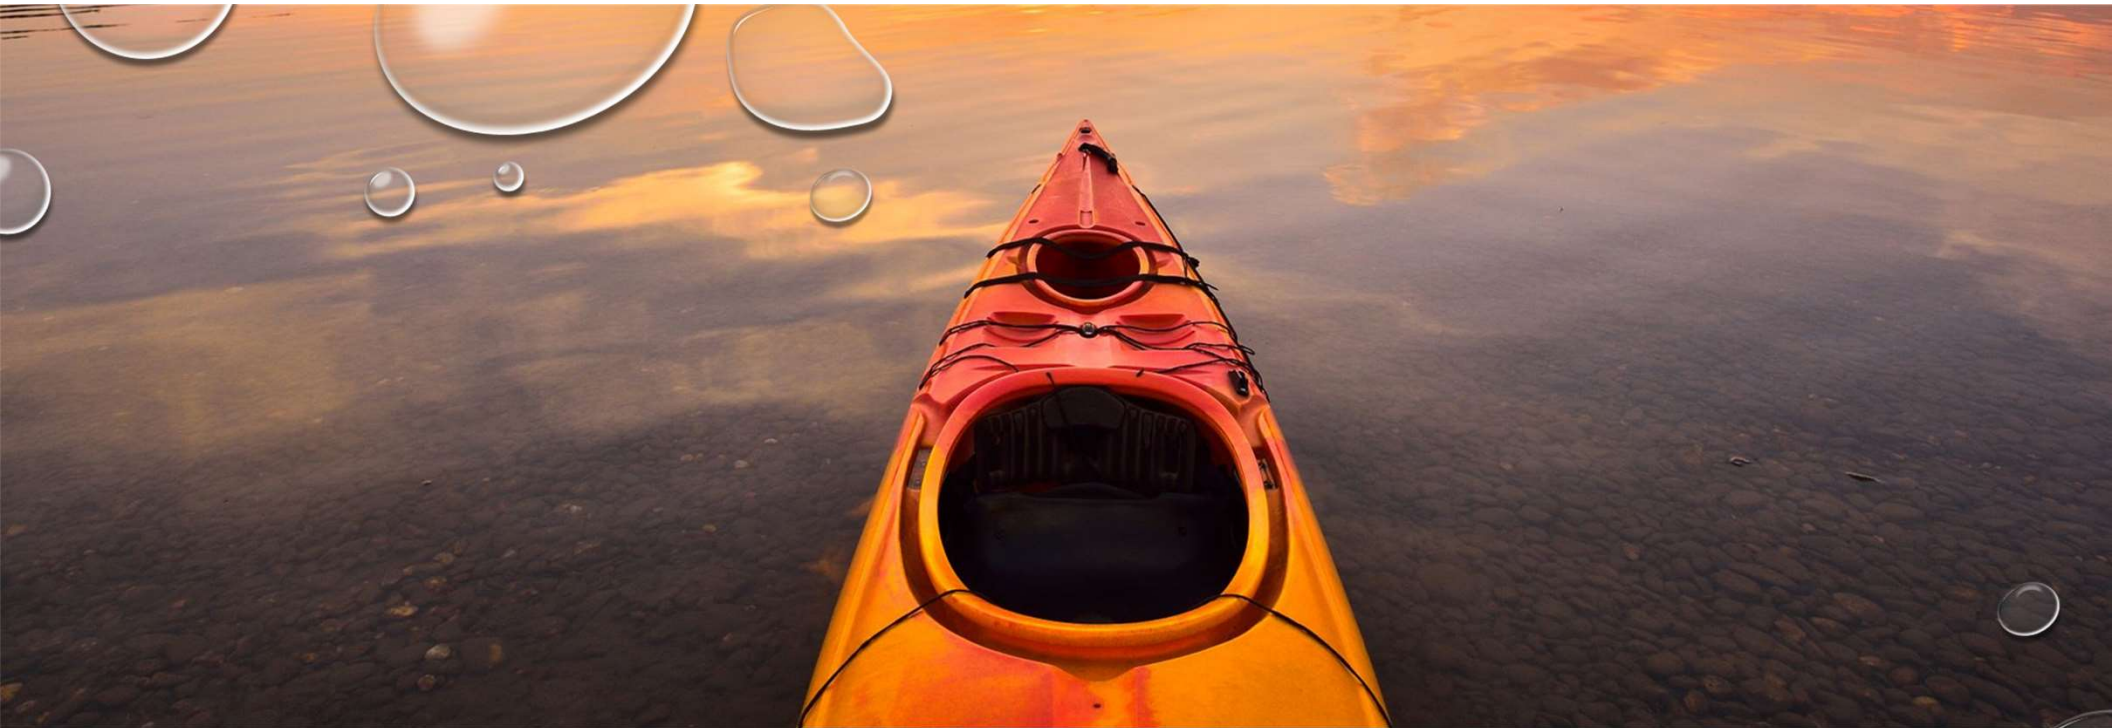

Piloted the course with many ACE-WIL Practitioners that expressed interest & informed the design of this professional development opportunity and revised accordingly.

Presented the course to the ACE-WIL Board for review and feedback.
